

Four Product Levels

DesignaKnit comes in a choice of these 4 product levels to suit your knitting style.

- **HandKnit**

A complete design and charting system for the hand knitter, including an extensive collection of stitch cables. Select from 200 new hand knitting stitch symbols with abbreviations and knitting instructions. Use as they are or alter to suit your needs.

- **Machine Standard**

The basics for machine knitters with a set of standard garment shapes and great stitch pattern design features. Full support for color changers. Optional cablelinks are available for almost any machine.

- **Machine Pro**

More features for the domestic machine knitter - the features of Machine Standard plus the freedom of Original Pattern Drafting.

- **Complete**

Everything in one program for the hand & machine knitter or designer who wants it all. The industry choice.
